## MODEL KS-4AM PANEL SAW

WITH

- Blade safety guard
- Fully adjustable cutting depth to 1"

The new KETT MODEL KS-4AM PANEL SAW features a big, long-life 3-3/8" high speed tool steel blade that gives clean cuts up to 1" deep. A fully adjustable depth control protects subsurface cross members and supports. The new spring loaded KETT SAFETY GUARD automatically covers the blade when the new KETT KS-4AM is not in use - thus, protecting the blade for a longer, sharper life and helping prevent accidental personal injury. Powered with a heavy duty industrial type 110 volt, AC/DC motor and equipped with ball bearings throughout, the new KETT MODEL KS-4AM SAW is based on a proven design for long, trouble-free life. Weighs only 9-1/2 lbs. Available with one 60 and one 80 Tooth saw blade and a 10 ft. extension cord. Metal carrying case available at \$6.50.

Price \$124.50 F.O.B. Cincinnati, Ohio
